**PHYSICIAN CERTIFICATION:** By signing below, I certify that I am prescribing Nutropin therapy for the patient named above and that (a) the above therapy is medically necessary and that I will supervise the patient's treatment accordingly, (b) I am not prescribing Nutropin for any of the following purposes: (1) athletic performance, (2) athletic body building, (3) anti-aging or (4) cosmetic use; (c) I have received the necessary authorizations, including those required by state law and the Health Insurance Portability and Accountability Act of 1996 (HIPAA), to release the above-referenced information and other health and medical information of the patient to Genentech, Inc., its agents and the contracted dispensing pharmacy, for the purpose of requesting reimbursement support, assisting in initiating or continuing therapy and/or the evaluation of the patient's eligibility for GATCF, as a break in treatment would negatively impact the patient's therapeutic outcome; (d) I will not attempt to seek reimbursement for free product provided to the patient; and (e) I request Genentech, Inc., and its agents to convey to the pharmacy chosen by the above-named patient the prescription prescribed herein. I agree to comply with the program guidelines as established by Genentech, Inc., and understand that the Genentech Access to Care Foundation, at its sole and absolute discretion, reserves the right to modify or discontinue the program at any time and to verify the accuracy of the information submitted. If applying for GATCF, I certify that (a) this patient has no medical insurance coverage or otherwise meets the financial criteria for the prescribed therapy, and is not eligible for other product financial support programs, and (b) the therapy identified above will not be used in a clinical trial. Note: Prescribers in all states must follow applicable law for a valid prescription and who is considered an authorized prescriber. For prescribers in states with official prescription form requirements, such as New York, please submit prescriptions on an official state prescription blank along with this form. Unapproved Use Warning: Please read the FDA-approved label for Genentech products before prescribing. If the indication for which you are prescribing is not listed in the FDA-approved label, you are prescribing the medication for an "unapproved" use, meaning that the FDA has not approved the efficacy, dosage amount or safety of this medication when used for such a use.

By signing below I request Lash to forward this Statement of Medical Necessity to a dispensing pharmacy on the behalf of my patient while ensuring that in doing so it remains unaltered.
